

VOL. 22 PG. 697
UPSHUR COUNTY COMMISSIONERS COURT
GILMER, TEXAS

October 11, 1982

Commissioners Court met in Regular Session with all members present.

Judge Dean read the minutes of the Sept. 28, 1982 meeting. Motion was made by J. W. Meadows seconded by Floyd Drennan for the minutes to stand as read. Motion carried.

Motion was made by J. W. Meadows seconded by Delmo Lawson to approve the County Clerk and two deputies attending a meeting in Longview, October 7, 1982. Motion carried.

Motion by Floyd Drennan seconded by J. W. Meadows to allow Keith Barber to attend a conference in Houston, Texas on Oct. 21-22. Motion carried.

Motion by J. W. Meadows seconded by Delmo Lawson to approve placing signs to reserve two handicapped parking spaces on the SE side of the Courthouse. Motion carried.

Motion by Charles Still seconded by Floyd Drennan to approve two ROW Deeds on Hwy. 300 from the following people: Motion carried.

- (1) Norman M. Shick and wife, Mary G. Shick
- (2) Ina Maude Sanders Moughon and husband, T. W. Moughon, Paul Sanders and wife, Dorothy Sanders

Motion by J. W. Meadows seconded by Delmo Lawson to approve a Permit Application by Paul H. Patrick to place a water meter within the ROW of Fern Road. Motion carried. Copy attached.

Motion by J. W. Meadows seconded by Delmo Lawson to approve a Permit Application by Santos Loy to place a culvert within the ROW of Aster Road. Motion carried. Copy attached.

Motion by Delmo Lawson seconded by J. W. Meadows to approve a Permit Application by W. L. Dixon to place a water line within the ROW of Nightingale Road. Motion carried. Copy attached.

Motion by Charles Still seconded by Floyd Drennan to approve a Permit Application by Pritchett Water Supply Corp. to place a water line within the ROW of Live Oak Road. Motion carried. Copy attached.

Motion by Charles Still seconded by Floyd Drennan to approve a Permit Application by Pritchett Water Supply Corp. to place a water line within the ROW of Black Walnut Road. Motion carried. Copy attached.

Motion by Delmo Lawson seconded by J. W. Meadows to approve a Permit Application by Miles Kardatzke to place a culvert within the ROW of Hillcrest Drive in the Green Hills Addition. Motion carried. Copy attached.

Motion by Charles Still seconded by Floyd Drennan for the County to assume maintenance of an extension to Locust Road. Motion carried. Copy attached.

Judge Dean presented a petition to the Commissioner's Court asking that the road in Country Club Estates be repaired. Commissioner Delmo Lawson had already talked to some of the property owners in order to resolve the situation.

County Auditor Keith Barber gave a summary of taxes payable on properties owned in Baylor and Throckmorton Counties. Copy attached.

Motion by Charles Still seconded by Delmo Lawson to dispurse \$100,000.00 of the Available School Funds. It will be left up to Judge Dean as to when the funds will be dispursed. Motion carried. A copy of the fund balances as of October 1, 1982 is attached.

Motion by Floyd Drennan seconded by Charles Still to accept a bid from Decatur Electronics for two radar units for the DPS in the amount of \$6,490.00 . Motion carried. Copy attached. This was the only bid received on the radar units.

Motion by J. W. Meadows seconded by Delmo Lawson to allow Keith Barber to engage auditors for the audit of the 1981-82 fiscal year. Motion carried.

Motion by J. W. Meadows seconded by Charles Still to allow Keith Barber to advertise in the newspaper for bids on a list of Capital Outlay items, to be prepared by Mr. Barber. Motion carried.

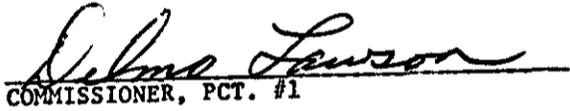

Motion by Delmo Lawson seconded by J. W. Meadows to approve payment of the unpaid bills. Motion carried. Copy attached.

Motion by Delmo Lawson seconded by Charles Still to allow Judge Dean and the Commissioners to attend the Annual Judges and Commissioners Conference in Abilene, Texas , October 13-15. Motion carried.

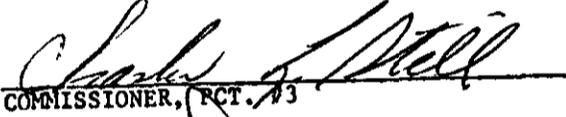

Motion by Delmo Lawson seconded by J. W. Meadows to close the Courthouse on October 21&22 during the Yamboree. The restrooms on the East end and the West end will be opened. Mr. Ashbrook is authorized to hire extra help to keep the restrooms usable during the Yamboree. Motion carried.

Court recessed until futher notice.

DECATUR RADAR

TO: Upshur County
Commissioners Court
% Judge Dean
Gilmer, Texas

DATE: 9-30-82

Re: Bid for Radar Sets

Gentlemen:

I am pleased to submit the following for your consideration:

I will furnish two (2) Range-Master MV-724 "Double Barrel"
DECATUR Radar Set(s) for \$ 6,490.00. This price includes
free installation, all mounts, cables, certified tuning
forks, luggage type carrying case, and full two year war-
ranty. In addition, at least one law officer will be
trained and certified to be competent in the use and opera-
tion of Doppler Radar to determine the velocity of motor
vehicles, and specifically certified to operate the Decatur.

*Parts and
Labor
Service Center
in Houston, TX.*

The DECATUR Radar Set(s) listed above meet or exceed the
Highway Patrol standards for range and overall performance.

Delivery will be made within two weeks, terms net 15 days.
The above price is subject to change without notice, after
30 days.

Your new DECATUR(S) will be delivered, installed, and road-
tested by your factory representative.

Thank you for giving me this opportunity to serve your speed
enforcement needs.

Sincerely,

Richard Kent

DECATUR ELECTRONICS

presents

"THE 724 DOUBLE BARREL"

MV-A-724

•SUPER LONG RANGE K-BAND RADAR BEAM

Decatur Electronics leads the way again with the smallest antenna and the longest range in the industry.

•DUAL ANTENNAS

Our Mighty Midget is only 4½" long and weighs 1 lb. 10 oz. Mounts on dash and back deck of patrol car.

•REMOTE CONSOLE

Houses the antenna selector, lock/release switch and our anti-detector device. Switches are lighted and color coded for easy night operation.

•ANTI-DETECTOR DEVICE (A.D.D.)

Our A.D.D. defeats all radar detectors on the market.

•WARRANTY

All Decatur Radars are fully warranted including parts and labor.

GENERAL:

The unit is designed for convenient use by law enforcement agencies to measure the speed of motor vehicles when operated from a moving or stationary mode. The unit must utilize the legally accepted "Doppler Principle" and be type accepted by the F C C. The unit must operate on the frequency of 24,150 MHz (K Band) as assigned by the F C.C. It should operate with an ambient temperature range of -20 degrees F. to +170 degrees F. and should have an operating voltage range of + 11 to +17 volts DC. The unit must be capable of measuring the speed of target vehicles while the patrol car is moving. It must also have target and patrol speeds exactly synchronized so that the target speed reading is not affected by rapid acceleration or deceleration of the patrol vehicle. The unit must have a Radar Detector Defeat Mechanism which turns the microwave beam on or off at the discretion of the operator. The unit must also have 2 antennas to provide for multi direction operation in moving and stationary modes. There must be a remote console which allows the officer to select forward or rear antennas, lock/unlock or anti detection modes.

FUNCTIONAL:

Package — the unit is of 4 piece design consisting of a readout, 2 antennas and a remote console.

The readout computer should have:

- a A range of 0 199 on targets and 0 99 on verify
- b Digital 7-bar display with bright yellow Numitrons The target readout should be larger than verify to allow for easy separation by the officer. There should also be a variable dimmer control which allows the officer to control the brightness of the readout display.
- c. One crystal to control accuracy and a second crystal to check accuracy.
- d. Plug in printed circuit boards giving modular construction with the latest solid state components for ease in servicing in the field.
- e. Manual lock with double action, illuminated switch to actuate manual lock/unlock.
- f. Push button memory of previous speed.
- g. A four function switch for power, segment check, internal test and manual mode.
- h. A rocker switch for selecting moving and stationary modes.
- i. A variable range control.
- j. A variable doppler audio volume control
- k. A padded cover to prevent injury to the operator in case of accident
- l. Physical dimensions
Width — 9", Height — 3 1/4", Depth — 6 3/4", Weight 4 lbs

"55" Limited
Call Collect: 601 - 684 - 9893
Richard Kent

Antennas (Dual):

- a. Should operate on K-Band 24,150 MHz.
- b. Should be of modern design with a rugged sheet metal cover which is easily removable for servicing.
- c. Should have minimum RF power of 95 MW.
- d. Should have time proven "Turnstile Junction" circularly polarized RF transceiver with "Gunn effect" solid state transmitter.
- e. Should have Schottky barrier mixer diode.
- f. Each antenna should have physical specifications of.
Diameter — 3 inches, Length — 4 1/2 inches, Weight — 1 lb. 10 oz.

Remote Console:

- a. Houses antenna selector, lock/unlock and anti-detector switches.

Options: Disconnect of automatic lock and alert functions

- The Decatur radar set is delivered complete with tuning forks, mounts, connecting cables and luggage type carrying case.

WARRANTY.

Decatur radar sets are fully warranted against all defects in materials and/or workmanship; normal wear and tear or abuse by user excluded.

Why the DECATUR "midget antenna" radar set is the least expensive to own and operate.

VOL-22
PG 115

The DECATUR Moving Radar antennas have solid, heavy, honed lens--- with rugged sheet metal cover housing the solid state transceiver. That's Durability!

The DECATUR longer range enables the aiming of the antenna straight ahead to obtain true and accurate readings, thus eliminating the "Cosine Error" problem. No Billboard or Overpass readings--- No Shadow error, or False Calibration. That's Dependability!

The DECATUR Moving Radars contain additional circuitry and are given rigorous tests to guarantee that DECATUR doesn't give all the false readings that some other makes do. That's Reliability!

"DOWNTIME"! This additional technical attention to detail" adds greatly to the longevity of a DECATUR Radar Set---and, greatly reduces the "downtime"---thus, the DECATUR is the least expensive to own and operate!

The PROOF is in the PERFORMANCE!!

Let's compare radars----

Call collect

RICHARD KENT

(601) 684-9895

P.S. I will furnish references in YOUR area who are using DECATUR "Midget Antenna" units.
