UPSHUR COUNTY COMMISSIONERS COURT
GILMER, TEXAS

RESOLUTION

STATE HIGHWAY FUNDING

WHEREAS, Upshur County recognizes the importance that the highway system plays in the growth and development of Upshur County and the entire State; and

WHEREAS, the 72,000 mile Texas highway system, once recognized as the best in the nation, is deteriorating. According to the studies of the Federal Highway Administration, Texas has 17,200 deficient bridges and 7,740 miles of highway rated in poor condition. Motorists in all parts of the state are suffering a continuing loss of mobility. Major problems have been observed on Farm to Market roads, rural primary highways, interstate routes, and urban freeways; and

WHEREAS, current funding sources available to the State Department of Highways and Public Transportation are inadequate to maintain the existing highway system and to improve the system to keep up with the growth of the state. It is estimated that the state's population will increase 50% by the year 2000. This anticipated growth will place substantially higher demands on the state's transportation facilities and services.

NOW, THEREFORE, BE IT RESOLVED THAT, we urge the 68th Texas Legislature to act expeditiously to provide additional funding for highway construction and maintenance. We also urge the 68th Texas Legislature to give consideration to appropriating part of these additional funds toward maintenance of city streets and county roads. We recommend that the level of state funding for highways be at least equivalent to defined state highway user fees and taxes. We further recommend that the state highway user fees be increased if necessary, not to exceed the user fees of states that border Texas, to meet the highway funding needs documented in the revised 20-Year Plan of the State Department of Highways and Public Transportation.
