June 28, 1984

The Honorable Everett Dean
Judge, Upshur County
Upshur County Courthouse
Gilmer, Texas 75644

Dear Judge Dean,

The "Schematic Design" budget, on which our fee is based, was \$2,496,538.00. By completion of "Design Development", it had increased to \$2,776,350.00, primarily in the "Justice Center" (from \$596,000 to \$765,000, or \$169,000 of the total increase of \$279,812). Most of the rest of the increase was in site work, demolition, etc. and very little in the Jail.

Unlike our competitors, we seldom request an increase in our fee basis, and never in the jail part. In this case, however, the overruns were beyond our control due to:

-changes of minds of functionaries in the center, causing significant space additions and alterations.

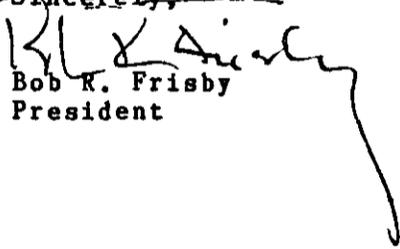

-in the absence of original prints of the old building during schematic design we were required to make several trips during "Design Development" to measure and verify column spacing, beams, etc., which necessitated additional space redistribution.

-also, the original survey we were furnished during schematic design was incomplete, requiring more on-site work and coordination with the surveyor, causing additional changes in the drawings.

Accordingly, we request that the Commissioners Court favorably consider adding the \$169,000 increase in Justice Center cost only to the schematic design budget for fee basis, raising that figure to \$2,665,538.00 as a fair basis for reimbursing us for extra, unplanned work.

We thank you for your consideration.

~~Sincerely,~~

Bob K. Frisby
President
