RE: 911 Contract

Dear Mr. Pritchett:

I have been authorized by the Upshur County Commissioner's Court to advise you that the County considers you to be in breach of the consultant agreement that was executed between you and the county on January 4, 1993. Specifically, you have not performed many of the functions that you were to have performed under that agreement. However, you have been paid a significant portion of the funds under the contract. As a matter of fact, I understand that you have been paid in total. Since what you have done completely puts us back to square one, please consider this a demand for return of all the funds which you have received under this contract. It is our feeling that you have put us at a great disadvantage. Also, consider this a demand for return of items that belong to the county included but limited to edit sheets, computer software discs of the map information, printer plotter, and any information or documents you have received from the post office and the telephone companies regarding this specific system. If full refund of the money and these items are not received within 10 days within receipt of this letter, I will bring this to the attention of the commissioners' court and my understanding is that they will request that I pursue appropriate litigation to recoup the funds as well as these particular items that have been demanded.

Thank you for your attention and cooperation.

Sincerely,

Tim Cone
